Background

"Person with Disability" means a person suffering from not less than 40% of any disability as certified by a medical authority.

According to Census 2011, there are 2.68 crore Persons with Disabilities in India (2.21 percent of the total population)

There is no data of PwDs giving personal details, disability-wise, district-wise, education and employment-wise etc.

Disability Certificate is basis for availing generated benefits. Only about 50% of PwDs have been issued Disability Certificates by the States/UTs in the country

With the enactment of Rights of Persons with Disabilities Act, 2016, the types of disabilities have been increased from existing 7 to 21 disabilities
